

Radian Research and Watthour Engineering Combine

August 18, 2011 • Radian Research, Inc. (RADIAN) and Watthour Engineering Company, Inc. (WECO) are pleased to announce that the two companies have been combined. WECO will now be part of RADIAN's Employee Owned Company. The combination of RADIAN and WECO creates the world's largest and most technologically innovative provider of energy reference standards, advanced energy meter testing systems, and automated laboratory calibration systems. This brings together the strengths of WECO's Watt•Net and WINboard software with RADIAN's accurate and precise energy measurement to deliver leading edge testing solutions for all classes of electricity meters including the very latest advancements in Smart Metering.

WECO will continue to operate at its existing facility located in Pearl, Mississippi and RADIAN will continue to operate at the corporate headquarters located in Lafayette, Indiana. All customers and field sales representatives should understand that both facilities will remain fully staffed and fully functional, thus all personnel and all contact phone numbers and email addresses have not changed. Rest assured that service and support of our customers remains the highest priority for our business at both facilities.

Resulting executive position appointments are: Tim Everidge is President and CEO, Havard Wall is Vice President and General Manager of WECO, Pete Dack is Vice President of Sales, Marketing and Service, Larry Anderson is Vice President of Finance and Accounting, Rich Mussmann is Vice President of Research, Development and Engineering. Chuck Weimer, the Founder and former President and CEO of WECO is appointed to serve on the Board of Directors for RADIAN and will serve as business advisor to the President and CEO.

Radian Research, Inc. is a 100% employee owned corporation.

About RADIAN • Radian Research, Inc. is the world leader of Energy Reference Standards, Energy Meter Testing Systems, Current Transformer Testers, DC to AC Transfer Standards, and Automated Laboratory Energy Reference Systems. Radian develops and manufactures both portable and primary energy reference standards that are absolutely unequaled in accuracy, stability and reliability. Radian customers consist of electric utility companies, energy meter manufacturers, energy meter test board manufacturers and national metrology institutes.

About WECO • Watthour Engineering Company, Inc. is the leading manufacturer and supplier of products and services for use in testing, repair, maintenance, and tracking of electric meters and associated equipment within the electric utility industry. Its products are used by utility companies and meter manufacturers throughout the United States and the world. In addition to manufacturing quality electric meter test equipment, Watthour Engineering has extensive software capabilities that complement its hardware.
