# METERING ASSET DEVICE MANAGEMENT SOFTWARE

WATT-Net Plus™

WATT-Net Plus™ is the most comprehensive asset management and integrated meter testing software solution in today's market.

▶ Features full lifecycle management of all metering assets and seamless integration of all meter testing data.

▶ Leverages all the power of RADIAN or WECO NIST traceable hardware.

Solutions for everyday meter shop challenges may be further customized with WATT-Net Plus ™ maximizing productivity:

▶ First Article Testing

▶ Sample/Periodic Testing

▶ Site Management

▶ RMA Tracking

▶ Function Testing Automation

▶ Advanced Custom Configuration

Field and Shop Management: Asset and device managemen is seamless with real-time field test equipment sync capabilities, online connectivity, and platform integration.

Complete Integration: The WATT-Net Plus™ system of record easily accommodates utility requirements for full integration with numerous platforms.

WATT-NET PLUS INTEGRATION

DEPLOYMENT METHODS:

– WATT-Net Plus System of Record
– WATT-Net Plus Bridge
    – Listener/API

HEAD END SYSTEM ADAPTERS:

– Command Center

MANUFACTURER ONLINE PORTAL

SUPPORTED PLATFORMS:

– SAP®
– Maximo®
– MDM/ODM
– CC&B
– NISC
– CIS

RADIAN WECO
Power and Energy Measurement Solutions

WATT-Net Plus Features:

▶ Advanced AMI Management, Testing, and Configuration Functionality

▶ Meter Shop Customizable Management Capabilities

▶ Roles-based Administration provides control and Security

▶ Reporting (Listing, Counts, Statistics)

▶ New Device and Sample Management

▶ Sample/Periodic Test Management, Testing & Reports

▶ Device Configuration Management

▶ Site Management

▶ Equipment Editors

▶ Equipment and Device State Tracking

▶ Audit and Certification Traceability

▶ Business Rules Engine
Device Support: Electric revenue meters, reference standards, current transformers, potential transformers, and testboards are currently supported.

Please contact your sales representative for additional information on WATT-Net Plus and other RADIAN or WECO software products and services.
