

WECO 311

Desktop Meter Station

Introducing the Next Generation of Meter Testing Power

Radian Research proudly presents the WECO 311 Desktop Meter Station — the evolution of the industry-trusted WECO 310. Designed for today's demanding utility and laboratory environments, the WECO 311 combines expanded capability with the same reliable performance you've come to expect from Radian Research.

What's New in the WECO 311:

- Higher Voltage Capacity – Now supports up to 600V, enabling testing across a wider range of applications with confidence and accuracy.
- More Power for Demanding Loads – Equipped with a 750VA transformer, the WECO 311 delivers more robust capacity to handle high-demand test scenarios with ease.
- Front Panel Convenience Outlet – 120V convenience outlet provided for ease of use in supplying power to auxiliary equipment.

Why Choose the WECO 311?

- Future-ready flexibility – Expanded meter compatibility ensures long-term value.
- Enhanced safety and performance – Higher voltage support widens the testing envelope without compromising protection.
- Proven Radian quality – Built on decades of meter testing expertise, backed by unmatched support and service.

The WECO 311 Desktop Meter Station is not just an upgrade — it's the next standard in reliable, high-performance meter testing.

***Empower your lab. Expand your capability.

| | |
|------------------------------------|---|
| Selectable Meter Forms | 1S, 2S, 3S, 9S, 12S, 16S, 35S, 36S, and 45S |
| Zero Insertion Force Socket | Yes |
| Meter Disconnect Indication | Yes |
| Selectable Voltage | 120V, 208V, 240V, 277V, 480V, and 600V |
| Selectable Current | 5A & 50A |
| Forward and Reverse Current | Yes |
| Voltage Source Rated VA | 750VA |
| Input Power Requirements | Standard 120V outlet, 5A |
| Weights / Dimensions | 27lbs / 10.8"x12"x12.6" |
